H2 Performance Consulting (H2), a high-growth, technology-enablement firm, is currently seeking a Naval Aviation Enterprise Analyst to support our government client in Whitbey Island, WA.

Job Description

- Analyzes business or operating procedures to devise the most efficient method of accomplishing the work.
- Plans the study of work problems and procedures, gathers and analyzes data, organizes and documents findings of studies, and prepares recommendations for implementing new systems, procedures, or organizational changes.
- Collates information into meaningful reports and presentation material.
- Develops monthly metrics data, review and analysis geared toward improving business processes.
- Performs data management of database tables, data elements, reports, and other entities contained in reporting systems.
- Analyzes project requirements including program scheduling, critical path analyses and project support/resource requirement determination.
- Fully participates in impact studies, cost/benefit analyses, dependency models, and employs appropriate project tracking methodologies.

Education

Bachelor's degree in a related discipline from an accredited college or university. In addition work toward a Master's degree in related discipline from an accredited college or university is to be considered favorably.

In lieu of a Bachelor's degree an Associate of Arts or Associate of Science degree and 10 years of experience OR high school diploma and 15 years of experience performing the foregoing functions may be substituted.

Experience

- Must have extensive Naval Aviation experience and an inherent familiarity with culture of Naval Aviation and associated processes to include Commander, Naval Air Force, U.S. Pacific Fleet (CNAP) reporting, and experience with ACES data
- Must have proficiency in utilization of Naval Aviation data bases, specifically: AMSRR, DECKPLATE, CRDB, and NALCOMIS
- Five – Seven years performing subject specific tasks in a complex and technically demanding project or task environment. A mix of military experience as a Commissioned Officer, senior enlisted or senior level DoD government, and corporate experience is required.
- Must be highly proficient in MS Excel, PowerPoint, Word
- Must have Lean Six Sigma Yellow belt working toward Green Belt.

Clearance Level Required

An Active Secret Clearance is Required

Qualified candidates may submit their resume to the career section of our company website at <http://www.h2pc.com>.
