

# THE SCRIPPS RESEARCH INSTITUTE EMPLOYMENT OPPORTUNITIES – LA JOLLA, CA [FEBRUARY 25, 2016]

## Research That Fuels Hope

### Our Vision

The Scripps Research Institute is a world leader in the discovery and early application of biomedical breakthroughs that lay the essential foundation for improvements in human health.

### Our People

Our world renowned faculty, researchers and staff confront and conquer new challenges every day as they work to improve the health of our friends and families, our communities, and the people of the world.

### Our Freedom to Discover

In our quest to unlock the most complex mysteries of life, we are given the latitude and responsibility to accomplish what was once considered impossible.

## Together, We Can Make a Difference

Req #	Job Title	Schedule	Department	Position Summary	Hiring Range
2994	Animal Technician I	Full Time	Animal Resources - CA	The Scripps Research Institute is currently seeking a full time Animal Technician I. This entry level position is responsible for the daily care of research animals including feeding, cage washing, maintaining a clean environment and monitoring the overall health of the animals.	\$12.44 - \$15.26 per hour
2273	Bioinformatics Programmer	Full Time	Molecular and Experimental Medicine	The hiring laboratory is involved in numerous projects to build software infrastructure for bioinformatics, genetics, and genomics research. We have a particular emphasis on building community platforms that enable collaboration and crowdsourcing.	Salary is commensurate with experience
2765	Center for Cell & Tissue Imaging, Director	Full Time	Core Microscopy	Independently direct and manage state-of-the-art, multi-user microscopy operations: (I) a Light Microscopy (LM) Laboratory, (II) an Electron Microscopy (EM) Laboratory, and (III) a Histology Laboratory. To review the full job posting please visit the website at: <a href="http://www.scripps.edu">www.scripps.edu</a> .	Salary is commensurate with experience

2834	Development Writer	Full Time	Office of Philanthropy - CA	The Scripps Research Institute is currently seeking a Development Writer to support the Institute's fundraising efforts by researching, drafting, and preparing individualized funding proposals to prospective high level donors and donor prospects. This person will be responsible for researching, drafting and preparing stewardship reports to current high level donors. Preparing and editing development-oriented case statements, brochures, news articles and other written communications as assigned.	\$22.27 to \$27.86 per hour
2457	Front End Developer/Designer	Full Time	Molecular and Experimental Medicine	Uses a variety of web technologies to build medium to large web applications and portals for both external-facing and internal use. Expected to discover, recommend and implement the latest web technologies, best practices and standards.	Salary is commensurate with experience.
2858	Graduate Program Coordinator	Full Time	TSRI Grad Program - Admin	The Scripps Research Institute (TSRI) is currently seeking a Graduate Program Coordinator. This position will coordinate two programs within the Office of Graduate Studies at TSRI: the PhD program and the high school summer internship program.	\$20.28 - \$25.35 per hour
2904	Grants Administrator I (Pre-Award)	Full Time	Office of Sponsored Programs - CA	The Scripps Research Institute is currently seeking a Grants Administrator I (Pre-Award) to provide administrative expertise in the pre-award reviewing of basic or routine contract and grant proposals; assist in coordinating aspects of pre-award application and document submission, which may include interacting with administrative support staff, faculty, and other key stakeholders to refine proposal project budgets, accurate record keeping, renewals, supplements, amendments, subcontracts, etc.	\$22.27 - \$25.00 per hour
2970	Pre-Award, Manager	Full Time	Office of Sponsored Programs - CA	The Scripps Research Institute is currently seeking a Pre-Award Manager who will be responsible for the Institute's grant and contract application process for sponsored research projects and programs. To review the full job posting please visit the website at: <a href="http://www.scripps.edu">www.scripps.edu</a> .	Commensurate with experience
2479	Research Assistant I	Full Time	Chemical Physiology	Seeking a research assistant to join our team that studies the molecular basis of metabolic diseases such as obesity and diabetes. Spread of the Western diet and a sedentary lifestyle has led to a spectacular increase in the prevalence of obesity and its complications.	Salary is commensurate with experience.

2772	Research Programmer II	Full Time	Molecular and Experimental Medicine	The hiring laboratory is involved in numerous projects to build software infrastructure for bioinformatics, genetics, and genomics research. We have a particular emphasis on building community platforms that enable collaboration and crowdsourcing. This position will be involved in one or more NIH-funded projects focusing on management of biological data. Current representative projects include BioGPS.org, mygene.info, genegames.org, and Mark2Cure.org.	Salary is commensurate with experience
2828	Research Technician	Full Time	Chemistry	Will carry out experimentation involving synthetic methodology and biologically active compounds. Will conduct multi-step organic syntheses, analyze the products by modern spectroscopic techniques (NMR, IR, MS), obtain X-ray crystallography structures, column chromatography, run small scale reactions, and titrate alkyl lithium reagents, run weekly biochemical cell growth inhibition assays, periodic assaying for FAAH (enzyme) inhibition, occasional proteome-wide activity-based protein profiling (ABPP) assays on serine hydrolases, occasional antimicrobial assays, and occasional DNA binding and alkylation assays.	\$16.68- 20.41 per hour
2964	Research Technician	Full Time	Molecular and Experimental Medicine	This position involves microbial strain development. Duties include cloning of DNA fragments, bacterial transformation, bacterial assay development, protein expression and purification. Duties also include routine preparation of reagents, cleaning glassware, running reactions, making salts, moving solvent, maintaining lab equipment, and perform other related duties, tasks and responsibilities as required or assigned.	\$16.68- 20.41 per hour
2978	Research Technician	Full Time	Chemical Physiology	Perform a variety of routine scientific tasks involving molecular biology, immunology and biochemistry techniques, flow-cytometry, DNA/RNA sequencing, record data providing basic analyses and interpretations and perform other related duties, tasks and responsibilities as required or assigned.	\$16.68- 20.41 per hour

To learn more about this opportunity and submit your application for consideration, please visit our website at <https://careers.scripps.edu>.

If you are a person with disability who is in need of a reasonable accommodation in order to participate in TSRI's application, interview, and/or selection process, please contact the Human Resources Department at (858) 784-8534 for assistance.

The Scripps Research Institute is an Equal Opportunity Employer. All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other legally protected characteristic or status.
