

# THE SCRIPPS RESEARCH INSTITUTE EMPLOYMENT OPPORTUNITIES – LA JOLLA, CA [NOVEMBER 30, 2015]

## Research That Fuels Hope

### Our Vision

The Scripps Research Institute is a world leader in the discovery and early application of biomedical breakthroughs that lay the essential foundation for improvements in human health.

### Our People

Our world renowned faculty, researchers and staff confront and conquer new challenges every day as they work to improve the health of our friends and families, our communities, and the people of the world.

### Our Freedom to Discover

In our quest to unlock the most complex mysteries of life, we are given the latitude and responsibility to accomplish what was once considered impossible.

## Together, We Can Make a Difference

Req #	Job Title	Schedule	Department	Position Summary	Hiring Range
2717	Administrative Assistant III Research	Full Time	Chemical Physiology	The Scripps Research Institute is currently seeking an Administrative Assistant III, Research. This position will provides administrative support for all levels of faculty and staff, primarily to one or more Principal Investigators (PI) as well as to lab personnel. Size of group supported varies, but is generally fewer than 18 people and does not usually consider Visiting Investigators or Scientific Collaborators in this count. Assignment may include assisting a higher level Administrative Assistant.	\$18.09 to \$22.58 per hour
2740	Administrative Assistant III Research	Full Time	Molecular and Experimental Medicine	The Scripps Research Institute is currently seeking an extremely detailed and organized Administrative Assistant III, Research to provide administrative support for all levels of faculty and staff, primarily to one or more Principal Investigators (PI) as well as to lab personnel. The group size supported may vary, but is generally fewer than 18 people and does not usually consider Visiting Investigators or Scientific Collaborators in this count.	\$18.09 to \$22.58 per hour

2676	Bioinformatics Analyst II	Full Time	DNA Array Core	Will manage and analyze data generated from next generation sequencing and microarray experiments performed in the Core Facility lab. This includes coordinating data distribution and archiving. In addition, will perform standardized data analysis and provide detailed comprehensive analysis reports to customers. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2273	Bioinformatics Programmer	Full Time	Molecular and Experimental Medicine	The hiring laboratory is involved in numerous projects to build software infrastructure for bioinformatics, genetics, and genomics research. We have a particular emphasis on building community platforms that enable collaboration and crowdsourcing. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2748	Business System Administrator	Full Time	Business Computing	The Scripps Research Institute is currently looking for a Business System Administrator to provide individual client (desktop) support and function as administrator of various customized applications used in Enterprise Resource Planning (ERP). Efforts are focused on the administration of the Institute's custom solutions and includes some basic and/or ongoing development support. Participates as assigned in development and reverse-engineering projects of custom solutions. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Commensurate with experience
1983	Center for Cell Ultrastructure & Morphology, Director	Full Time	Core Microscopy	Responsible for managing the operations of the Microscopy Facility, this includes the daily operations of the Electron Microscopy and Light Microscopy, and the Histology Laboratories. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2457	Front End Developer/Designer	Full Time	Molecular and Experimental Medicine	Uses a variety of web technologies to build medium to large web applications and portals for both external-facing and internal use. Expected to discover, recommend and implement the latest web technologies, best practices and standards.	Salary is commensurate with experience.
2746	Human Resources Assistant II	Full Time	Human Resources - CA	The Human Resources (HR) Department at The Scripps Research Institute is currently seeking an HR Assistant II to be the primary point of contact for the department. The HR Assistant II will perform a variety of duties in the areas of reception, recruitment, scholar and intern processing/onboarding, and departmental administrative support. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Commensurate with experience

2711	Industrial Hygiene Manager	Full Time	Environmental Health & Safety - CA	The Scripps Research Institute is currently seeking an Industrial Hygiene Manager to manage the development, planning, and implementation of the industrial hygiene programs within the Institute. Responsibilities will involve developing policies and procedures for the implementation of a comprehensive industrial hygiene and occupational health management program For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Commensurate with experience
2736	Intern-Research	Part Time	Immunology and Microbial Science - CA	Interns receive occupational experience, closely supervised training and are able to develop their professional skills. Duties include basic laboratory maintenance such as glassware washing; autoclaving; media, solution, and buffer prep; replenish supplies and follow experimental procedures assigned by laboratory staff.	\$10.10 per hour
2753	Intern-Research	Part Time	Chemical Physiology	We are seeking an intern who has computer science background for developing bioinformatics software packages for the analysis of mass spectrometry-based proteomics data. This should be an excellent opportunity to learn practical applications of bioinformatics. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	\$9.00- 10.00 per hour
2401	Intern-Support	Part Time	Molecular and Experimental Medicine	Interns receive occupational experience, closely supervised training and are able to develop professional skills. Duties vary depending up on the assigned administrative support department.	\$9.00 - \$10.00 per hour
2383	Research Assistant I	Full Time	Molecular and Experimental Medicine	Perform a variety of routine scientific tasks involving molecular biology and biochemistry techniques, DNA/RNA sequencing, record data providing basic analyses and interpretations and perform other related duties, tasks and responsibilities as required or assigned. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2479	Research Assistant I	Full Time	Chemical Physiology	Seeking a research assistant to join our team that studies the molecular basis of metabolic diseases such obesity and diabetes. Spread of the Western diet and a sedentary lifestyle has led to a spectacular increase in the prevalence of obesity and its complications. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2721	Research Technician	Full Time	Integrative Structural and Computational Biology	Seeking a Research Technician to join a research team investigating protein structure by electron microscopy. Will act as a liaison between many different investigators interested in obtaining images of protein complexes and be responsible for receipt of samples, preparation of samples for electron microscopy studies, imaging, and data processing. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	\$16.68- 20.41 per hour

1923	Senior Bioinformatics Programmer	Full Time	Molecular and Experimental Medicine	The laboratory is involved in numerous projects to build software infrastructure for bioinformatics, genetics, and genomics research with a particular emphasis on building community platforms that enable collaboration and crowdsourcing. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
1569	Staff Scientist	Full Time	Molecular and Experimental Medicine	This position will be involved in the design and implementation of bioinformatics software tools. These tools include open source software for use by other bioinformaticians, as well as web-based tools for use by experimental biologists. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Salary is commensurate with experience.
2749	Technology Development Officer	Full Time	Technology D & T	The Scripps Research Institute is currently seeking a Technology Development Officer to transfer non-complex intellectual property into and out of business, market technology, monitor agreements, ensure compliance with governmental regulations, promote awareness of intellectual property protection and technology transfer to researchers and industry. For a complete summary of this opportunity, please visit the TSRI career page at: <a href="https://careers.scripps.edu">https://careers.scripps.edu</a>	Commensurate with experience

To learn more about this opportunity and submit your application for consideration, please visit our website at <https://careers.scripps.edu>.

If you are a person with disability who is in need of a reasonable accommodation in order to participate in TSRI's application, interview, and/or selection process, please contact the Human Resources Department at (858) 784-8534 for assistance.

The Scripps Research Institute is an Equal Opportunity Employer. All qualified applicants are encouraged to apply and will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other legally protected characteristic or status.
